BOEM recently decided to host a Budget Formulation Workshop this Spring for our program budget coordinators to discuss budget formulation and learn more about the Administration and Secretarial priorities. The Workshop will be held on March 6-7 (2018) within the MIB North Penthouse. I mentioned the Workshop to James and he agrees that it would be a wonderful opportunity for the BOEM budget coordinators to hear directly from you about Secretarial and Administration priorities. Would you be interested in speaking with the group for 45-50 minutes? We are flexible with the agenda at this point and can schedule it on March 6 or 7. Thank you for considering this opportunity. Best wishes, Kylie

Since our last emails I have joined an organization (PerPetro Energy) that has a solution to the ARO-financial assurance problem which has frozen GOM OCS transactions, and created a tension between current owners and predecessors in the chain of title. As I know you are aware BSEE/BOEM issued a revised financial assurance requirement NTL in 2016 which met with a great deal of industry consternation and push back. Since then there have been a number of clarifications, letters and extensions issued. We believe we have the solution to the logjam -- that will fulfill the NTL assurance requirements and restore transparency and compliance. Our group is headed by Joe LeBlanc (formerly LLE, Shell and EPL) and Bill Kerins (formerly Oaktree and Goldman). We would like to present the concept to you so that you will have another option to include in the considerations that are underway regarding how to reconcile the various interests and positions -- and still get the assurance that financial obligations will be met timely. would like to discuss this on the phone with you when you have the time and determine if it is appropriate to set up a meeting. Please advise. Regards, Tony Richards, 504-481-5711, Tony.richards@perpetroenergy.com, tony@jonarichardsltd.com, www.perpetroenergy.com

Briefing document attached. In the wake of the recent supplemental funding push for hurricane recovery efforts, BOEM would like to bring an issue to your attention. Specifically, the role our Marine Minerals Program plays in disaster recovery efforts, particularly those related to the restoration of beaches and coastal habitats. We appreciate the opportunity to brief PMB, POB, and ASLM on our program and how we work with stakeholders to process disaster recovery efforts projects. While we may have missed the opportunity for inclusion in the latest supplemental package, we want to make sure everyone is aware of the role we play so you all can advocate on our behalf for future supplemental requests.

Hello Mr. Balash: I would like the chance to brief you about and seek your approval or disapproval for two matters involving oil/gas lease cancellations. The first is a proposal to cancel a number of BLM oil/gas leases in the Bridger Teton National Forest in Wyoming. I have attached a one-page briefing paper on that subject. The second is a description of a proposed settlement to resolve a dispute about leases that were cancelled in Colorado's Thompson Divide area in 2016. There is a paper on that as well. Both of these topics have been bouncing around for a while. But I thought they might be new to you. Is there a time where we can talk to you about these items? On March 15, 2018, I met with David Frulla and Andrew Minkiewicz of Kelly Drye & Warren LLP upon their request. The subject of the meeting was offshore wind energy and the sole issue discussed was the potential New York Bight wind lease sale and the potential impacts on scallop fisheries. I would be more than happy to further discuss any concerns you have on this matter and I can definitely schedule 30 minutes for next week through Amanda. Is the New York Bight wind lease sale subject to active litigation? -Kate

Have the guards call Amanda Long at 208-2197 when you arrive. Sounds interesting - happy to meet. Perhaps we could do a joint meeting. Real time monitoring is in BSEE's wheel house vs. BOEM, so I'm looping in Scott Angelle (BSEE Director) as well as my EA Amanda to be your POC on setting up a meeting. -Kate Background attached but I was looking to set up a meeting with AstroTechnology for them to come explain their technology and their ongoing successes in providing real time monitoring of offshore drilling. Founded and based in Houston, Astro Technology pioneered using fiber-optic sensing technology and data acquisition systems for oil and gas applications, and subsequently established a number of industry standards. The Astro Technology sensor systems are able to measure pressure, temperature, strain, vibration, and various flow properties along risers, pipelines, wellheads, and other drill platform infrastructure. We have been having making the rounds on Capitol Hill and been well received by committees of jurisdiction with follow up requests for information as they are starting to figure out what role they need to play as we look to further our offshore oil and gas drilling. Given that Secretary Zinke and you all are at the heart of this debate we thought it made sense to come in and have a conversation about what Astro Technology's is doing right now in the Gulf of Mexico and around the world to enhance safety and monitoring in off-shore drilling projects. Let me know if you need additional information on the company or its operations. Otherwise I appreciate it if you can help me identify who the right folks at DOI might be for me to work with to set up a meeting. Thanks in advance, Chris

#### Description:

The deck for our meeting is attached. We will have copies for those who attend in person. As guidance for the agencies who submitted slides for the "lightning round" (i.e. omnibus slide) portion of the agenda, please note that all of the slides you provided will be included in the deck as a reference in the appendix. We ask that your agency principal (or designee) use their time to provide a high-level 1-2 minute overview, highlighting the areas where there is synergy with the work of the BIWG and opportunities to coordinate with other federal agencies. \*\*\* Dear Colleague: Thank you for your support of the work of the Broadband Interagency Working Group. Please save-the-date for the next quarterly meeting, which will take place in EEOB Room 350 on May 2nd at 4pm. Additional information will be forthcoming from the White House. Description:

Please contact Amanda Long at 202-2197. Laura Abram, Director of Public Affairs for First Solar, Inc., would like the opportunity of meeting with you on Wednesday, May 9th (before 3:00 pm). Kathy Weiss, First Solar's Vice President of Federal Affairs and Katie Cullen would accompany her. The purpose of the meeting would be to discuss issues related to the use of public land for solar energy projects including the Desert Renewable Energy Conservation Plan (DRECP), BLM Resource Management Plan for solar energy, rents and bonds associated with projects on public lands, and First Solar's Desert Quartzite solar project in California. First Solar has developed, engineered, constructed and currently operates many of the world's largest grid-connected photovoltaic power plants. In addition, First Solar is a leading U.S. manufacturer of advanced photovoltaic modules—with manufacturing facilities in Perrysburg, Ohio. A factsheet with additional information about First Solar is attached. Please feel free to contact any of the individuals listed below with any questions, or to schedule an appointment. Description:

Kate would like for us to set up a briefing for her (possibly Joe as well) on US-Bahamas Maritime Boundary Negotiations. Participants from BOEM are: Walter, James, me, and Timothy McCune. June 4, 5, 6, and 7 (before 3 pm) all will work. Earlier in the week would be better, since the actual negotiations will occur starting on Monday the following week. Walter will be on travel that week except Monday, but we can do it without him if needed. Thanks, Emily

**Description:**

Do you have a few minutes to connect by phone tomorrow morning to discuss this language and implications for not only wind, but offshore development more broadly? This language was included in the House CJ's Appropriations bill: Offshore Wind Impacts. - NOAA shall study the effects of offshore wind farm construction and operation on marine mammals and fish, including the need for any mitigation measures. NOAA should work with other appropriate agencies when completing this research. NOAA shall report to the Committee on this matter within two years of enactment of this Act. This language appears on p. 33 of the House Interior Appropriations Committee Report: The Committee believes that a strong Federal-State partnership is critical for the success of offshore renewable energy projects. The Committee is concerned that changes may have been made to the proposed wind farm off Ocean City, MD after review of the project by the State Public Service Commission, and the Committee is aware of the Town of Ocean City's concerns regarding the height of the wind turbines. The Bureau is urged to consult with the Maryland State Intergovernmental Renewable Energy Task Force prior to the review and approval of a construction and operations plan (COP) for projects offshore Maryland. Please have the guard call Amanda Long at (b) (6) when you arrive Hi  
Kate: I hope you are doing well. A Western Colorado contingent will be in Wash DC on Tuesday June 12, and while they are here, they would like to meet with you to discuss the need for infrastructure that would allow U.S. Rocky Mountain natural gas producers to export LNG to foreign markets. The discussion will be largely focused on Jordan Cove, and the role that Interior plays in the approval of this project. Attending the meeting will be: Rose Pugliese, Mesa County (Colorado) County Commissioner David Ludlum, Western Slope Colorado Oil and Gas Association (WSCOGA) Derek Wagner, Colorado Mesa University I hope you have some time to meet with the group on June 12. Thanks for your consideration. Description:

From: Hannah Dewey Date: Tue, Jun 12, 2018 at 12:28 PM Subject: Re: [EXTERNAL] Methow Headwaters meeting request To: "SIO, Scheduling" ,joe\_balash@ios.doi.gov Cc: William Dove , Joseph Hayes , "O'Brien,Sean" Leila, Thank you so much for your help here and for referring me to your colleagues. Here is a little more information that I hope will help with the meeting request to Assistant Secretary Balash. I am the point of contact for the meetings and my cell phone is (b) (6) Feel free to reach out by phone if that's better for you.

---

Dear Assistant Secretary Balash, I am writing to request a meeting time with you during our upcoming visit to DC (Monday June 18-Wednesday June 20) to discuss the Methow Headwaters mineral withdrawal request currently underway in Washington state. We acknowledge the mutual importance of this topic to you, your department, and our community's interests. As such, we place great value in the opportunity for us to meet and share thoughts and steps forward on this important topic. We have been working closely with Congressman Newhouse and his office who have been very supportive of our community's effort - I have cc'd Sean O'Brien on this email from Congressman Newhouse's office. We have overwhelming local, regional, and state-wide support of our request from elected officials at all levels, as well as various other organizations representing citizens, ranchers, farmers, and outdoor recreationists, including outdoor sportsman's groups. Our delegation visiting DC represents this diversity and comprises of the following individuals from the Methow Headwaters effort: • Maggie Coon, Board Chair, Methow Valley Citizens Council • Soo Ing-Moody, Mayor, Town of Twisp • Kevin van Bueren, Methow Valley business owner and Methow Valley Fly Fishing club board member • Jay Kehne, Conservation Northwest Associate • Hannah Dewey, Organizer, Methow Headwaters Campaign Additionally, Congressman Newhouse and/or his staff intend to join us in meetings, when possible. We appreciate the value of your time and would be extremely grateful for a slice out of your very busy schedule. I thank you for your consideration of our meeting and withdrawal request, and sincerely look forward to an opportunity to personally meet you and discuss the next steps of this critical request. I look forward to hearing from you, or your office, at your earliest convenience. Sincerely and with best wishes, Hannah + Methow Headwaters team

Hi Amanda, Kate and I talked briefly yesterday about scheduling a meeting regarding the NPC Arctic study. We agreed that scheduling a meeting as soon as possible would be useful to better define what the NPC might accomplish for the Department of the Interior with a focused addendum to the 2015 report. Marshall, John, and I would participate in the meeting. Below are possible blocks of time. Can you identify a couple of times that a meeting would work for Kate so that we can find a time that works best for everyone? We anticipate that 30-45 minutes will be sufficient time. Please let me know if you have any questions. Thanks for your help. Best regards, Jim Jim Slutz National Petroleum Council (b) (5) (direct) (b) (5) (mobile)

**Description:**

\*\* Remote participants: Please join by dialing into the conference line and joining the Google Hangout. BE SURE TO MUTE YOUR COMPUTER AND DISABLE THE CAMERA. \*\* In June, the USGS will announce a forthcoming energy resource assessment of the Eagle Ford Shale in Texas. The Eagle Ford Shale extends from the Mexico-U.S. border in southern Texas north through San Antonio towards Waco. The Eagle Ford has been an active oil and gas producing region for the past decade. USGS previously assessed the Eagle Ford in 2011. Using a geology-based assessment methodology, the USGS will assess estimates of undiscovered, technically recoverable resources of oil and natural gas. A news release is planned, and USGS expects to offer Congressional briefings.

I suggest an hour block if possible...10 minute overview of the who/what/where/why of our system, and then 20-30 minutes of the 'how', and some time left over for questions. We have GoTo Meeting to allow screen sharing. Elizabeth Hora, of my staff, was the primary subject matter expert on this development, so she will run the demo. Also, if you are open to the idea I want to invite Nate Thomas, the BLM's Deputy Preservation Officer for Utah, to sit in on the meeting on our end. Let us know a time that works next Thursday, and we will get prepared. If you are interested, I'm attaching a white paper I wrote on the benefits of the e106 system in money and days. **Description:**

Have the guard call Amanda Long at 208-6734 when you arrive, thanks I'dlike to see if we can't set up a meeting with some principles betweenFirstNet and the Department of Interior to get a similar sharedinfrastructure approach moving forward. Agencies that want to deploytelecommunications services and fixed wireless infrastructure face notjust a significant regulatory challenge by way of environmental andhistorical preservation, but also from our antiquated procurementregulations, systems, and vehicles. FirstNet offers an incredible opportunity to accelerate some of the plans I heard the Secretary andKate lay out today, especially when there is such a large lawenforcement and fire protection population inside of Interior. Let meknow if we can set something up in the next few weeks and I'll rallythe handful of people that make sense on my end. Participants: Gina Nance, Vice President at GCC Sarah Vance, Head of Environmental, GCC Adam DeVoe, Permitting Counsel to GCC Raya Treiser, WilmerHale, Permitting Counsel to GCC Dear Kate, I hope your summer is going well. We met last fall at the Women in Energy and Infrastructure Event I hosted at WilmerHale – thank you again for your participation and excellent remarks at that event. I am reaching out today on behalf of my client GCC Energy, which owns and operates the King II Coal Mine in southwestern Colorado. Company officials will be in town on July 25 and 26, and we would appreciate the opportunity to meet with you and brief you on the project and our work with BLM and OSM on a proposed coal mine expansion that would allow the mine to continue operation. Please let me know if you would be available on the afternoon of July 25 or any time on the 26, and what times would work best for you. Best, Raya Raya B. Meeting with Todd Willens. POC: Ben Cassidy I'm wondering if some combination of your and/or Todd Willens and/or Katie McGregor and/or Brian Steed would be up for a meeting next week on the 3rd and 4th quarter lease sales in Wyoming in the Greater Little Mountain and Red Desert/Hoback area? You've probably heard a fair bit about these but I've attached some letters describing the situation. Joy Bannon, the Wyoming Wildlife Federation Field Director, and Josh Coursey, President of Muley Fanatics Foundation out of Wyoming. They will both be in town next week and we are hoping to catch up with you about these leases for an update, and to provide some additional perspective from the field. Thursday between 10:30 and 2:30 would be ideal but they have other times Tues - Thurs they could do it if that slot doesn't work. Thanks for considering, and enjoy your imminent weekend. ### DoD Sustaining Military Readiness - Wednesday Plenary Speaker Coordination Meeting

**Where:** Kate's Office, MIB 6618

**Calendar:** (b) (6)

**Created by:** Katharine MacGregor

**Who:** Katharine MacGregor, Susan Combs, Amanda Long, Tasha Robbins

**Description:**

Purpose: Speaker coordination meeting for the DoD Sustaining Military Readiness Conference, Wednesday (August 15th) Plenary Session This meeting will provide an opportunity to discuss the goals and objectives for the plenary session, outline the flow of the session, and answer any session or logistical questions. Attached is a updated draft session agenda and logistics that we will review and work from during the coordination call. This is just a draft that we will adjust based on our discussion. Please think about any moderator questions you would like to be asked and we will work them into the session. I'll plan to bring some background info on the conference - historic attendance, breakdown of current attendance, popular topics from previous conferences, and my thoughts/insights on the items folks might be most interested in. I look forward to talking on Monday- thank you!

1pm - 1:30pm

(b) (5) [REDACTED] [Please note: The United States Secret Service requires all individuals to present a passport or U.S. government-issued photo ID for entrance to the White House complex. All guests' personal information should be entered on the security webform exactly as it appears on their U.S. government-issued IDs. If there are any discrepancies between this information and the presented ID, we cannot guarantee clearance onto the complex. To access the White House, guests will enter via the Southwest Visitors' Entrance at 17th Street and State Place, NW, which is diagonally across the street from the Corcoran Gallery of Art and New York Avenue, NW. Guests will proceed through two Secret Service checkpoints, both of which will require each guest to show a valid government-issued photo ID. Due to the volume of guests accessing the White House, it is suggested that guests arrive at least 15 minutes prior to the meeting to clear security.] Thank you, William Muran

**Description:**

Hello all! I would like to invite you to attend an in personinteragency meeting for natural gas pipeline coordination/cooperationhere at FERC on October 2, 2018. Participants: Agencies with NationalEnvironmental Policy Act (NEPA) review or permitting responsibilitiesfor interstate natural gas pipeline, LNG facility, and storage projectsunder FERC jurisdiction. Purpose: To offer agencies involved with NEPAreview of FERC projects a regularly-scheduled meeting with FERCenvironmental staff to discuss any issues or questions, allow forupdates to all agencies at one time, and provide an opportunity fordiscussion amongst our federal agency partners. Details: We envision ahalf-day meeting (9:30 to noon) that would include: • follow up toitems we discussed at our interagency meeting last November. We haddiscussed a number of options available for early involvement ofagencies in project review/development and we would like to moveforward on some of these items and see if there are any newdevelopments we can discuss. o Identifying agency data needs andsharing these needs with applicants at the start of projects: At themeting, we had discussed preparing agency-specific checklists toprovide to potential project applicants, informing them of the agency'sdata needs or processes. For the checklists, I would anticipate that wewould have a master document that would provide a number ofagency-specific checklists, contacts, websites, and helpful hints. Weanticipate that the checklists would be distributed by FERC/otheragencies to applicants. We would have the ability to provide thesechecklists to trade groups, such as the Interstate Natural GasAssociation of America and at our FERC seminars to a wide audience.This is an item we would like to move forward with and would like toestablish a working group of anyone interested in developing a checklist. o Identifying and communicating with a main point of contactand/or regional offices: For agencies with regional offices, it wasuggested that the agency headquarters office/contact could maintain anactive roster of regional staff who review FERC pipelines. We wouldsuggest establishing one or two agency personal who would receive allFERC Notices that could assist FERC staff in contacting the properregional staff. This would help us ensure that the regional staff arebeing included in our project-specific mailing lists and invited to seenearby construction activities or attend local meetings. o Trainingopportunities: Most of you should soon receive notification regardingthe upcoming FERC seminar scheduled for December in Charleston, South Carolina. FERC has been providing the headquarters contacts and/orregional staff a listing of future seminars or trainings to allowagencies to take advantage of any opportunities available to a specificregion, including possible half-day workshops. We are always happy todevelop specific presentations or trainings for regional orheadquarters staff, and are interested in participating if otheragencies develop pipeline related training courses. • coordinationduring FERC certificate application review. We spoke about pre-filingat the last meeting, let's discuss how the agencies can best worktogether once an application is filed with FERC. • any new developmentswe can discuss. Let us know if there are any topics you would like todiscuss or share with the group. Thank you for your participation andwe look forward to working with your agencies to develop methods toassist in early collaboration. **Description:**

Good afternoon, Attached is the agenda for tomorrow's meeting. Directions on entering the building: Enter on the National Mall(Jefferson DR) side of the USDA Whitten Building - 1400 Jefferson DR SW where we will have staff direct you to the meeting room. Please reachout with any questions. Colleagues, Please join USDA for the inaugural meeting of the federal Rural Prosperity Coordination Council at USDA, 1400 Jefferson Drive SW, Washington DC, Whitten Building, Williamsburg Room, 104-A on Thursday, November 15, 2018, 11:00 - 12:00pm. Thanks to the departments and agencies who participated in the Agriculture and Rural Prosperity Task Force and contributed to crafting the President's Report on Agriculture and Rural Prosperity. Transitioning from the Task Force and to continue the interagency effort, the Rural Prosperity Coordination Council has been established to engage high-level federal leaders to ensure broad implementation of the Report's actions. The agenda and logistical information will be circulated prior to the meeting. USDA looks forward to again leading this important effort and, on behalf of agriculture and rural citizens, we thank you for your commitment to returning prosperity to the rural America. Kindly, [USDA-Color-seal-COC-] Rebeckah Freeman Adcock Senior Advisor to the Secretary Office of the Secretary United States Department of Agriculture Office: 202-690-2464 Cell: (b) (6) Rebeckah.Adcock@osec.usda.gov This electronic message contains information generated by the USDA solely for the intended recipients.
